

Mr. Paul Stacey  
Bureau of Water Protection DEP  
79 Elm Street, Hartford, CT 06106

Dear Mr. Stacey,

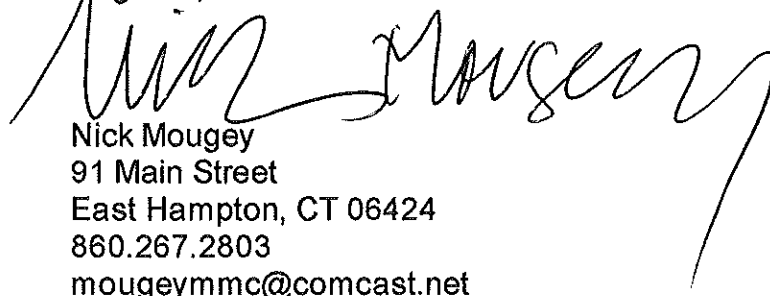

I am a citizen who supports healthy rivers, and I want regulations passed soon which protect our rivers from going dry. I am writing you to let you know that I support the adoption of the new streamflow regulations.

However I do not agree that the additional write-in of Class 4 should be included. Please don't give up on our most heavily impacted rivers because other people and organizations are telling you there is no hope for any restoration.

This Class 4 addition must be eliminated to insure that urbanized rivers, like the Quinnipiac, will have their streamflow protected.

Thank you for your attention to this important matter.

Regards,
